

WCAG 2.2 Success Criteria Map

PERCEIVABLE

Content reaches people through whatever senses they have.

1.1 TEXT ALTERNATIVES

- A

1.1.1

Non-text Content

Every image, icon, and chart has words that replace it.

1.2 TIME-BASED MEDIA

- A

1.2.1

Audio-only and Video-only (Prerecorded)

Audio-only gets a transcript; video-only gets words or narration.
- A

1.2.2

Captions (Prerecorded)

Recorded video shows what is said and heard.
- A

1.2.3

Audio Description or Media Alternative (Prerecorded)

Blind viewers get the visuals described or written out.
- AA

1.2.4

Captions (Live)

Live video gets captions as it happens.
- AA

1.2.5

Audio Description (Prerecorded)

Recorded video narrates what matters on screen.
- AAA

1.2.6

Sign Language (Prerecorded)

Recorded video comes with a sign language version.

508
- AAA

1.2.7

Extended Audio Description (Prerecorded)

Video pauses so narration can describe everything.

508
- AAA

1.2.8

Media Alternative (Prerecorded)

A full text version stands in for the video.

508
- AAA

1.2.9

Audio-only (Live)

Live audio gets a text version as it happens.

508
- 1.3

ADAPTABLE

A

1.3.1

Info and Relationships

Headings, lists, and tables are coded, not just styled.

A

1.3.2

Meaningful Sequence

Reading order still makes sense when styling is gone.

A

1.3.3

Sensory Characteristics

Instructions never rely on shape, size, place, or sound.

AA

1.3.4

Orientation

Works in portrait and landscape; lock neither.

508

AA

1.3.5

Identify Input Purpose

Common form fields are coded so browsers can autofill.

508

AAA

1.3.6

Identify Purpose

Icons, regions, and controls are coded so tools can relabel them.

508

1.4 DISTINGUISHABLE

- A

1.4.1

Use of Color

Color never carries meaning by itself.
- A

1.4.2

Audio Control

Auto-playing sound can be paused, stopped, or turned down.
- AA

1.4.3

Contrast (Minimum)

Text stands out from its background, 4.5 to 1.
- AA

1.4.4

Resize Text

Text zooms to 200% and nothing breaks.
- AA

1.4.5

Images of Text

Use real text, not pictures of text.
- AA

1.4.10

Reflow

Zoom to 400% without scrolling sideways.

508
- AA

1.4.11

Non-text Contrast

Controls and icons stand out too, 3 to 1.

508
- AA

1.4.12

Text Spacing

Widening letters, lines, and paragraphs breaks nothing.

508
- AA

1.4.13

Content on Hover or Focus

Pop-ups can be dismissed, hovered, and stay put.

508
- AAA

1.4.6

Contrast (Enhanced)

Text stands out even more, 7 to 1.

508
- AAA

1.4.7

Low or No Background Audio

Speech has no background sound, or it is very quiet.

508
- AAA

1.4.8

Visual Presentation

Readers can set colors, width, spacing, and zoom.

508
- AAA

1.4.9

Images of Text (No Exception)

Never use pictures of text unless decorative or essential.

508

OPERABLE

Anyone can run the controls, at their own pace.

2.1 KEYBOARD ACCESSIBLE

- A

2.1.1

Keyboard

Everything works with a keyboard alone.
- A

2.1.2

No Keyboard Trap

Keyboard users can always tab back out.
- A

2.1.4

Character Key Shortcuts

Single-key shortcuts can be turned off or remapped.

508
- AAA

2.1.3

Keyboard (No Exception)

Everything works by keyboard, no exceptions at all.

508

2.2 ENOUGH TIME

- A

2.2.1

Timing Adjustable

Time limits can be turned off, extended, or adjusted.
- A

2.2.2

Pause, Stop, Hide

Moving or updating content can be paused.
- AAA

2.2.3

No Timing

Nothing is timed, except real-time events and recorded media.

508
- AAA

2.2.4

Interruptions

Alerts and updates can be postponed or turned off.

508
- AAA

2.2.5

Re-authenticating

Logging back in never loses your work.

508
- AAA

2.2.6

Timeouts

People are warned how long inactivity is allowed.

508

2.3 SEIZURES AND PHYSICAL REACTIONS

- A

2.3.1

Three Flashes or Below Threshold

Nothing flashes more than three times a second.
- AAA

2.3.2

Three Flashes

Nothing flashes more than three times a second, ever.

508
- AAA

2.3.3

Animation from Interactions

Motion triggered by actions can be turned off.

508

2.4 NAVIGABLE

- A

2.4.1

Bypass Blocks

Offer a way to skip repeated menus.
- A

2.4.2

Page Titled

Every page has a title that says what it is.
- A

2.4.3

Focus Order

Tabbing moves in an order that makes sense.
- A

2.4.4

Link Purpose (In Context)

Link text, with its context, says where it goes.
- AA

2.4.5

Multiple Ways

Offer more than one way to find a page.
- AA

2.4.6

Headings and Labels

Headings and labels describe what follows.
- AA

2.4.7

Focus Visible

You can always see which item has keyboard focus.
- AA

2.4.11

Focus Not Obscured (Minimum)

Sticky headers and pop-ups never completely hide the focused item.

508
- AAA

2.4.8

Location

The site shows where you are within it.

508
- AAA

2.4.9

Link Purpose (Link Only)

Link text alone says where the link goes.

508
- AAA

2.4.10

Section Headings

Content is organized under headings, section by section.

508
- AAA

2.4.12

Focus Not Obscured (Enhanced)

Nothing ever covers any part of the focused item.

508
- AAA

2.4.13

Focus Appearance

The focus outline is thick and high contrast.

508

2.5 INPUT MODALITIES

- A

2.5.1

Pointer Gestures

Swipes and pinches have a simple tap alternative.

508
- A

2.5.2

Pointer Cancellation

Actions happen on release, so a slip can be undone.

508
- A

2.5.3

Label in Name

The visible label is part of the coded name.

508
- A

2.5.4

Motion Actuation

Shaking or tilting has a button alternative.

508
- AA

2.5.7

Dragging Movements

Anything you drag can also be done by clicking.

508
- AA

2.5.8

Target Size (Minimum)

Click targets are at least 24 by 24 pixels.

508
- AAA

2.5.5

Target Size (Enhanced)

Click targets are at least 44 by 44 pixels.

508
- AAA

2.5.6

Concurrent Input Mechanisms

Switch between mouse, touch, and keyboard at any time.

508

UNDERSTANDABLE

Content and controls make sense and behave predictably.

3.1 READABLE

- A

3.1.1

Language of Page

The page declares its language in code.
- AA

3.1.2

Language of Parts

Passages in another language are marked in code.
- AAA

3.1.3

Unusual Words

Jargon and idioms come with definitions.

508
- AAA

3.1.4

Abbreviations

Abbreviations come with their expanded form.

508
- AAA

3.1.5

Reading Level

Text reads at lower-secondary level, or a simpler version exists.

508
- AAA

3.1.6

Pronunciation

Words whose meaning depends on pronunciation get help.

508

3.2 PREDICTABLE

- A

3.2.1

On Focus

Landing on a control never triggers a surprise.
- A

3.2.2

On Input

Changing a setting never triggers a surprise.
- A

3.2.6

Consistent Help

Help links sit in the same spot on every page.

508
- AA

3.2.3

Consistent Navigation

Menus stay in the same place on every page.
- AA

3.2.4

Consistent Identification

The same thing looks and is named the same everywhere.
- AAA

3.2.5

Change on Request

Big changes happen only when you ask for them.

508

3.3 INPUT ASSISTANCE

- A

3.3.1

Error Identification

Errors are pointed out and described in text.
- A

3.3.2

Labels or Instructions

Fields say what to enter before you enter it.
- A

3.3.7

Redundant Entry

Never make people type the same thing twice.

508
- AA

3.3.3

Error Suggestion

When you err, the site suggests how to fix it.
- AA

3.3.4

Error Prevention (Legal, Financial, Data)

Big commitments can be checked, fixed, or undone.
- AA

3.3.8

Accessible Authentication (Minimum)

Logging in never depends on memory or puzzles.

508
- AAA

3.3.5

Help

Context-sensitive help is available.

508
- AAA

3.3.6

Error Prevention (All)

Every submission can be checked, fixed, or undone.

508
- AAA

3.3.9

Accessible Authentication (Enhanced)

Logging in never needs memory, puzzles, or object recognition.

508

ROBUST

Code is clean enough for assistive technology to read.

4.1 COMPATIBLE

- A

4.1.2

Name, Role, Value

Every control tells assistive tech what it is and does.
- AA

4.1.3

Status Messages

Updates are announced without stealing focus.

508

FUNCTIONAL LIMITATION KEY

Section 508 functional performance criteria, 36 CFR 1194 App. C §302. An icon on a criterion means that criterion is one the person depends on.

- 

Without Vision 302.1

Works with no sight at all, by sound or touch.
- 

With Limited Vision 302.2

Works when you can see, but not well.
- 

Without Perception of Color 302.3

Works if every color looked the same.
- 

Without Hearing 302.4

Works with the sound off.
- 

With Limited Hearing 302.5

Works when sound is faint or muddy.
- 

Without Speech 302.6

Works without ever speaking aloud.
No WCAG criterion requires a non-voice alternative; voice-only kiosks and phone systems fall to 508's technical chapters.
- 

With Limited Manipulation 302.7

Works with shaky, slow, or one-handed control.
- 

With Limited Reach and Strength 302.8

Works without a long reach or a hard press.
- 

With Limited Language, Cognitive, and Learning Abilities 302.9

Works when reading, memory, or focus is hard.
- 

No 508 counterpart
